

Glen EV Technologies Quick Guide to SEAI Grants for EV Charging

For all these grants you must not begin any work before being approved for the grant. Work undertaken before your grant is awarded will be ineligible and may cause your grant offer to be withdrawn.

Electric Vehicle APARTMENT Grant

There are two levels for this scheme:

Tier One

- Applies to Landlords, OMCs, Local Authorities and Housing Associations
- Can recoup the between 50% and 80% of costs of putting in EV charging infrastructure, these costs can include cabling, labour, charge points, infrastructure etc
- If you already have charge points in place you can apply to extend that infrastructure and increase your charge points

Not eligible for Tier One

- Properties with their own private drive way (you are eligible for the home grant scheme see below)
- New builds since March 10th 2021
- Buildings or car parks where owner would have been previously required to install chargers or wire the building / car park

How to apply: Get in touch with us at sales@glenev.com and let us take you through the process painlessly.

Tier Two

- Applies to owner occupiers, residents/tenants.
- Can recoup up to €600 of the cost of putting a new charge point on existing approved Home grant SEAI scheme.
- Maximum grant of €600 per charging socket.

How to apply: See below re the EV HOME grant.

Grant To Install An EV Charger At Your Employees Home: €600

If you are providing staff with electric vehicle then they may be eligible for a €600 grant to install a charger at their home. You must meet these criteria.

- For company applications only M1 passenger vehicles only are eligible (so company cars are eligible but not vans and trucks yet).
- No previously existing charger at this address.
- Vehicles must be new in Ireland, privately imported as new or second hand and registered in Ireland in 2018 or later.

How to apply: Get in touch with us at sales@glenev.com and let us take you through the process

Glen EV Technologies Quick Guide to SEAI Grants for EV Charging

For all these grants you must not begin any work before being approved for the grant. Work undertaken before your grant is awarded will be ineligible and may cause your grant offer to be withdrawn.

Electric Vehicle HOME Grant: €600

- The grant is applied to the location not the person which means that this must be the first charger installed at this address.
- If the previous owner had one installed and you want to upgrade you are not eligible for this grant.

How to apply: <https://www.seai.ie/grants/electric-vehicle-grants/electric-vehicle-home-charger-grant/> or get in touch with us at sales@glenev.com and we'll take you through the process.

Community Grants: Up to €220,000

There is a grant for innovative community efforts to improve energy efficiency and environmental performance. If you are running an apartment complex or multi use complex, it is possible that your property and its owners might be eligible for this grant. EV chargers could be part of this project but it is much broader in scope.

If you are seriously considering your options for this kind of work we advise contacting one of the SEAI project coordinators, who will be able to help you, give timelines and realistic ideas about what could be funded. [Go here for more](#)

Whatever your questions or concerns about installing an EV charge point at your work, home, apartment, venue, business, in any location at all and whatever the scale of your project, please drop us a line at sales@glenev.com, we would be delighted to help you get the process started.
